Abstract : *Regionalization in local state is one of the manivestation of spatial planning. This policy is taken according to the efficiency of government beaureucrazy, for increasing services and optimalization of environmental and natural resources. In Wonogiri local state, the implementation of the regionalization is not effective. There is disparity condition among each number of population, development potential and probability of region, socio culture condition, tourism, governmental at district level, and finally safety to the region. To overcome this problem, major stakeholder and government offices suggest to extend of the governmental at district level.*

Key Word : Regionalization, Effectiveness assesment
