Abstract

Discussing Jean Paul Sartre (JPS), we can not separate him from existentialism. As a philosopher and a writer, his thought about existentialism exists in all his writings, either in prose or drama. However, it is good idea to deliver his ideas to society, through the words uttered by the characters that he created. Les Mouches is one of his dramas that brings the ideas of freedom as the center of his thought.

Key words: *existentialism, drama, philosophy and freedom*
