Bapak/Ibu Yth :

Saya Dhanny Candra Adiatma, mahasiswa Fakultas Kedokteran Universitas Diponegoro Semarang, Program Studi Kedokteran Umum. Saya bermaksud melakukan penelitian mengenai “Prevalensi dan Jenis Anemia Pada Pasien Penyakit Ginjal Kronik Yang Menjalani Hemodialisis Reguler”. Penelitian ini dilakukan sebagai tahap akhir dalam penyelesaian studi di Fakultas Kedokteran Universitas Diponegoro, Program Studi Kedokteran Umum. Pada penelitian ini akan dilakukan pengumpulan data berupa data karakteristik demografi sampel berupa nama, umur, jenis kelamin, alamat, serta penyakit yang mendasari. Kemudian akan dilakukan pengambilan sampel darah vena sebanyak 5 cc untuk dilakukan pemeriksaan laboratorium yaitu kadar Hb, *complete blood count*, hitung retikulosit, serum besi, TIBC dan bilirubin total. Terdapat ketidaknyamanan saat proses pengambilan darah vena. Analisis laboratorik akan dilakukan di laboratorium RSUP Dr. Kariadi Semarang. Seluruh biaya pada proses penelitian ditanggung oleh peneliti. Peneliti akan menjaga kerahasiaan identitas dan informasi yang diberikan dan hanya digunakan untuk kepentingan penelitian.
