PENELITI : Ari Prasetya

**Persetujuan setelah Penjelasan****(INFORMED CONSENT)**

---

Yth. Saudara/i :

Nama saya Ari Prasetya, saya adalah mahasiswa Program Studi S-1 Ilmu Pendidikan Dokter Fakultas Kedokteran Universitas Diponegoro. Saya akan melakukan penelitian dengan judul Pengaruh Pemberian Minuman Isotonik Terhadap Memori Pada Keadaan Dehidrasi.

Tujuan dari penelitian ini untuk mengetahui pengaruh rehidrasi dengan minuman isotonik terhadap memori. Saudara/i akan diminta untuk mengisi kuesioner dan Saudara/i akan dimasukkan ke dalam salah satu dari 3 kelompok secara acak. Sebelum penelitian dilakukan, Saudara/i tidak boleh dalam keadaan dehidrasi, harus tidur cukup selama 7-8 jam pada malam sebelum penelitian, tidak mengonsumsi kafein 24 jam sebelum penelitian, dan makan maksimal 2 jam sebelum penelitian. Saudara/i akan diminta untuk melakukan tes untuk mengetahui skor memori (1). Kemudian Saudara/i akan diminta untuk berolahraga lari dengan jarak 5 kilometer yang ditempuh dalam waktu maksimal 45 menit. Setelah itu, Saudara/i akan diminta untuk kembali melakukan tes untuk mengetahui skor memori (2). Setelah itu, Saudara/i akan diberi perlakuan sesuai kelompok (kelompok 1: tidak diberi air minum, kelompok 2: diberi air mineral, kelompok 3: diberi minuman isotonik). Terakhir, Saudara/i akan diminta untuk kembali melakukan tes untuk mengetahui skor memori (3).

Manfaat dari penelitian ini adalah Saudara/i dapat mengetahui jenis minuman yang baik untuk mengembalikan cairan tubuh yang hilang. Saya menjamin bahwa penelitian ini tidak akan menimbulkan efek yang merugikan pada Saudara/i. Penelitian saya ini bersifat sukarela dan tidak ada unsur paksaan.

Dalam penelitian ini, saya menjamin kerahasiaan segala data yang saya peroleh, data hanya akan saya gunakan untuk kepentingan penelitian. Apabila ada informasi yang belum jelas, Saudara/i bisa menghubungi saya, Ari Prasetya, Program Studi Pendidikan Dokter Universitas Diponegoro (HP: 083898794094).

Demikian penjelasan dari saya. Terima kasih atas kerjasama Saudara/i dalam penelitian ini.
