To: novie.susanto@ft.undip.ac.id, Thomas Putranto <putranto@ft.undip.ac.id>

Dear Authors,

Attached herewith, please see the galley proof paper for final checking. Please note that this is the final correction and after this checking, you will not be able to change anything later on. As many grammatical errors found, we have done the following corrections:

1. Grammar corrected by Zakaria
2. Formatting correction done by Zakaria
3. Figures and space including title of figures and sections corrected by Zakaria

Please do not change the format if any correction. We accept minor correction only (no major corrections). Please send **PDF version (Publishable Format including all journal information such as page numbers, vol, and issue number, date of received, revised and accepted etc.)** of your galley proof paper by 4 days from the date of this email using the following link.

<http://www.geomatejournal.com/galley>

We accept online submission only. Please make sure that your copyright must be signed by all authors (samples attached).

Best regards.

GEOMATE Journal Review and Evaluation

Submission Date	2018-01-30 09:04:38
Paper ID number	73578
Paper Title	STAKEHOLDER INTERACTIONS MODEL OF GROUNDWATER MANAGEMENT IN SEMARANG CITY/INDONESIA
i. Originality	3
ii. Quality	3
iii. Relevance	4
iv. Presentation	4
v. Recommendation	4
Total (sum of i to v)	18
General comments	The paper is so simple. Need to improve in several aspect ..See the mandatory change.
Mandatory changes	<p>Why this study use RACI to formulate a model of stakeholder interaction related to groundwater management in Semarang City and map it ? As the authors said there were several method than can be used. Please give a brief explanation.</p> <p>The total respondent only 27 people. Is it enough? How you can said that the respondent can be used to represent the result of this research? The author also do not mention the characteristic of respondent. Please make a table that summarize the characteristic of respondent, include age, the position and gender, etc.</p> <p>Only 23 community members and 4 person from industrial managers What a sampling technique you used to select them. Random? It is not clear. And from what regiion, since there are so meany region in Semarang city. Why you select that region? It is also not clear</p> <p>You only invite 23 and 4 person, or more? are they not giving a good respon to you? It is no t clear.</p> <p>Table 2 start with low but table 3 start with high.. you should more consistent. Based on your study, any implication managerial for each stakeholder. Please make it clearly. What is the limitation of study and what is your suggestion for the future research from the result of this study.</p> <p>I think for journal, you should add more reference for international journal.</p>
