## Focus and Scope

Komunitas: International Journal of Indonesian Society and Culture welcomes original articles on issues arising at the intersection of nations, states, civil societies, and global institutions and processes. The editors are particularly interested in manuscripts dealing with changing patterns in the analysis of ethnic groups, social classes, religions, personal networks, changes in mass culture, propaganda, technologies of communication and their social effects, and the impact of social transformations on the changing order of public and private life. The journal is interdisciplinary in orientation and international in scope, and is not tethered to particular theoretical or research traditions. The journal presents material of varying length, from research notes to article-length monographs. Published twice a year, Komunitas is a peer review journal.
