Peer Review Process

Submitted manuscripts will be screened with ithenticate to detect and prevent plagiarism. The accepted similarity index is range between 10-20%, with notes that Author(s) has used the appropriate citation

After a manuscript is screened, Editor will review the submitted manuscript in accordance with the journal scope and focus

If a manuscript is approved, Editor then forward the manuscript to Reviewers to review the substance of the manuscript in accordance with scientific principles (suitability, update, clarity, correlation, concise) and the journal focus. In addition, Editors and Reviewers can give a suggestion in order to improve the manuscript

Editors or Reviewers are eligible to change and improve the spelling, writing, and grammar without reducing the principal substance from the manuscript

Open Access Policy

This journal provides immediate open access to its content on the principle that making research freely available to the public supports a greater global exchange of knowledge.
