Could I publish in International Journal?

DEFINITELY

YES ... YES ... YES

Types of Academic Papers?

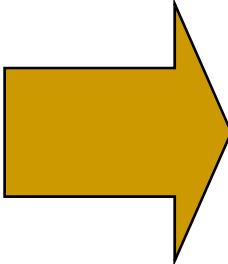

Keuntungan Publikasi di Jurnal Internasional ?

- Ikut berkontribusi pada peningkatan peringkat institusi di World University Ranking

Journal Citation Rating / Impact Factor

Bagaimana
Jurnal Internasional
Dikatakan
BERKUALITAS
?

Ditentukan oleh:
JCR (Journal Citation Rating)
or
IF (Impact Factor)

- Impact Factor is a ratio of the number of articles that cited to the journal to the number of articles published by the journal

Kriteria Penilaian Akreditasi Jurnal - DIKTI

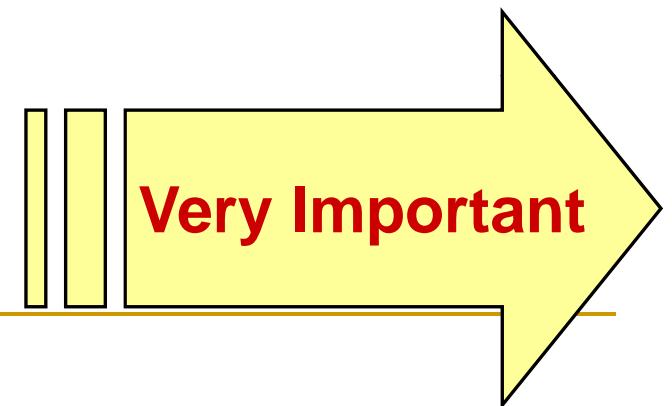

- Penamaan Berkala (5)
- Kelembagaan Penerbit (5)
- Penyuntingan (21)
- Penampilan (9)
- Gaya Penulisan (11)
- Substansi Isi (36)
- Keberkalaan (10)
- Kewajiban Pasca Terbit (3)

Artikel yang Berkualitas

What is Suitable Journals for Your Paper ?

- Quality of Research Output → Decide on subject area
- Read the types of articles in Most Suitable Journals
- Decide on type of journal paper (*Research Art., Review Art., Short Communications, etc.*)
- Read papers from that journal if you are not familiar with the journal
- Read the AUTHOR GUIDELINES

Mengapa Perlu Proses Peer-Review ?

Mempunyai peran penting dalam menjaga standar kualitas suatu jurnal ilmiah

Untuk memastikan bahwa artikel yang dipublikasi di jurnal ilmiah tertentu mempunyai kualitas saintifik yang baik dan standard

Siapa Yang Menjadi Reviewer Jurnal Internasional ?

- Reviewer/Referee yang dipilih oleh Editor jurnal berdasarkan atas **expertise/keahlian** mereka
- Editor jurnal selalu menambah **koleksi Referee** dari waktu ke waktu berdasarkan track record Referee
- Referee juga dapat diperoleh dari **searching di jurnal** yang dilakukan oleh Editor
- Semakin banyak kita publish di Jurnal International maka kita akan semakin dikenali oleh Editor. Bahkan suatu saat kita bisa diundang oleh Editor untuk **menjadi Reviewer**
- Biasanya jurnal selalu minta saran **List of Potential Referee** ketika anda men-submit-kan paper, paling tidak 3-5 potential reviewer → manfaatkan sebaik-baiknya

Reviewer ???

- Apakah dibayar? **TIDAK**
- Apakah tertulis di halaman jurnal? **TIDAK**
- Terus apa keuntungan jadi Reviewer?
 - Dikenal oleh Editor Journal
 - Mendapat akses penuh ke **SCOPUS** dan **FULLTEXT SCIENCEDIRECT** selama sebulan

First Fast Review (Before Peer-Reviewed)

- Evaluasi pertama → **skop artikel** (Jika skop jurnal tidak sesuai maka langsung di-reject. Jadi pilihlah jurnal dengan skop yang sesuai)
- Bahasa → **English Grammar**. (Jika English grammar sangat tidak standard biasanya artikel tersebut langsung di-reject tanpa review lanjut)
- Artikel yang **Accepted** tetapi **English-nya kurang baik** → maka Reviewer akan meminta penulis untuk membetulkan grammarnya, tetapi Reviewer tidak akan me-review atau memberi komentar/saran dimana letak English yang tidak betul.

Aspek-Aspek Penting yang di-Review

- **Originality** (asli karya sendiri atau tidaknya hasil paper riset). Biasanya *Referee* akan melakukan search dan membandingkan terhadap artikel-artikel terdahulu di jurnal. Penulis sebaiknya bisa *proof*-kan keaslian dari teknologi yang diekspos, lebih baik secara eksplisit di bagian *Introduction* dan ditegaskan lagi di *Discussion*.
- **Novelty** (dimana letak kontribusi barunya di ilmu pengetahuan). Kebaruan dari artikel sebaiknya dibuktikan secara eksplisit di dalam teks artikel atau secara singkat di bagian pendahuluan. Artikel harus merujuk kepada paper-paper yang baru agar letak novelty-nya terbukti.
- **Metodologi** (tepat atau tidaknya metodologi digunakan untuk menyelesaikan masalah)

Aspek-Aspek Penting Yang Di Review(2)

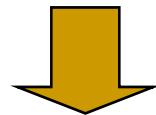

- Harus memenuhi **kode etik penulisan** (tidak boleh duplikasi terhadap riset orang lain).
- **Presentasi hasil riset** harus jelas dan data-data yang dihasilkan harus menunjang/mendukung kesimpulan. Kadang-kadang jika hasil riset tidak signifikan dan tidak menunjang kesimpulan, paper akan di-*reject*
- **Signifikansi hasil riset** dalam paper. Hasil penelitian harus signifikan dan lebih baik dari riset-riset yang terdahulu serta menunjang Kesimpulan.
- Apa saja yang **diklaim di Kesimpulan** harus betul-betul di-support oleh data penelitian yang signifikan

Keputusan Diterima/Tidaknya Suatu Manuskrip/Artikel

- **Jumlah Reviewer** → hak Editor untuk menentukan
- Biasanya: **2-3 Reviewer** → satu manuscript
- Jika 1 Referee menyatakan Accepted (with major/minor revision) dan 1 Referee lagi juga Accepted (with major/minor revision), biasanya Editor akan memutuskan **Accepted with Revision**.
- Jika 1 Referee menyatakan Accepted dan 1 Referee yang lain menyatakan Rejected, biasanya Editor akan memilih **tambahan satu Reviewer lagi**, jika Accepted, maka paper itu akan Accepted with major or minor revision.
- Namun jika kedua Referee menyatakan Rejected, maka otomatis paper itu akan **Rejected**. Tetapi pernah ada satu paper dengan jumlah reviewer 4 orang

Strategi Penyiapan Artikel Jurnal Internasional ?

**Penyiapan
Manuskrip Revisi**

Perlu strategi dan
berhati-hati dalam
menjawab
pertanyaan Reviewer

**Penyiapan
Corrected Proof**

Contoh Review Result

CONTOH:

“Review Result from Editor”

Teknik Menjawab Komentar Reviewer

- Jawab komentar Reviewer secara singkat dan jelas
- Berikan alasan yang saintifik, baik itu menerima atau menolak saran/permintaan dari reviewer
- Jika menolak, maka sebaiknya diberikan alasan yang betul-betul saintifik dan jelas
- Jawaban komentar harus dijelaskan letaknya yang jelas di dokumen (halaman, baris, paragraf)

ACS Online Submission and Peer Review

For Authors and Reviewers of ACS Journals:

The American Chemical Society is implementing a new system for online manuscript submission and peer review called the ACS Paragon Plus Environment. ACS journals will be migrating from the ACS Paragon System on a journal-by-journal basis. During this transition period, use the list below to determine which system you should use.

Important Notice:

Manuscript submission and peer review will be unavailable for *Analytical Chemistry* and the *Journal of Medicinal Chemistry* from 9 p.m. EST Thursday, July 26, until 10 a.m. EST Monday, July 30, as we prepare the journals for the ACS Paragon Plus Environment. Please complete your work before or after this time period. We apologize for any inconvenience.

For help, please contact the [ACS Publications Help Desk](#) at (800) 227-9919 (toll-free in USA/Canada) or (202) 872-4357, from 7:30 a.m. until 6 p.m. (EST). More information about the ACS Paragon Plus Environment is available in the [Author & Reviewer Resource Center](#).

Aims & Scope

Asian Journal of Political Science (AJPS) is an international refereed journal sponsored by Department of Political Science, National University of Singapore. It is a leading journal that comprehensively examines politics and governance in Asia. It publishes original articles in major subfields of political science, especially comparative politics, international relations, political theory and public administration, with specific reference to Asian regions and countries.

AJPS aims to address some of the most current political, diplomatic, and administrative issues facing Asian countries, especially those in East Asia, South Asia, and Southeast Asia. The journal can be of great value to teachers, students, researchers, and experts dealing with these issues and regions.

Instructions for Authors

*****Note to Authors:** please make sure your contact address information is clearly visible on the outside of all packages you are sending to Editors.***

Asian Journal of Political Science (AJPS) invites contributions focusing on Asian countries or regions and covering major areas of political science, including the system of state and government, political parties and elections, civil society and non-government organization, interstate relations and conflict, Asian political thought, foreign policy and diplomacy, public policy and public administration, administrative reform and decentralization, etc.

Terms & Conditions

AJPS considers only original manuscripts that have not been published or submitted elsewhere for consideration. Authors must seek permission to quote from and reproduce copyright materials in their manuscripts. Each submission is subject to blind review, and therefore, the author's name and affiliation should not appear on the manuscript itself. For each manuscript, there should be a cover page to include the author's name, affiliation, address, telephone, fax, e-mail, and biographical note (a short paragraph). Authors will be informed of the outcome and editorial decision within 2-3 months after the initial submission of manuscripts.

It is a condition of publication that authors assign copyright or license the publication rights to the publisher. They may subsequently use the article elsewhere after publication without prior permission, provided that proper acknowledgement is given to **AJPS** as the original source of publication. Further information about copyright policies is available at www.tandf.co.uk/journals/authorrights.pdf.

Correspondence

Authors should submit manuscripts via electronic mail (softcopy) or regular mail (three printed copies) to either of the two Editors: (1) **Jon S.T. Quah**, Department of Political Science, National University of Singapore, 11 Arts Link, AS1 4th Level, Singapore 117570, E-mail: polqst@nus.edu.sg; or (2) **M. Shamsul Haque**, Department of Political Science, National University of Singapore, 11 Arts Link, AS1 4th Level, Singapore 117570, E-mail: polhaque@nus.edu.sg.

Books for review should be sent to **Kripa Sridharan**, Department of Political Science, National University of Singapore, 11 Arts Link, AS1 4th Level, Singapore 117570, E-mail: polsridh@nus.edu.sg.

Manuscript Preparation

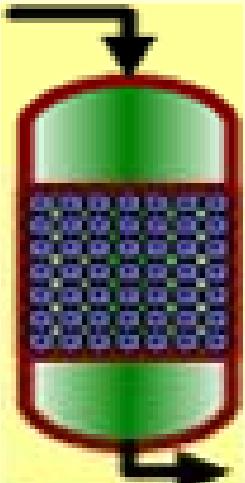

All submissions must be in English, typed in Microsoft Word, and thoroughly double-spaced (text, notes, and references) with one-inch margins from all sides. British spelling is preferred. Use single quotation marks for quoted text, and double quotation marks for quotes within a quote.

Manuscript pages should be consecutively numbered. The length of articles should be around 6,000 to 10,000 words (including notes and references). The first page of each manuscript should contain the article title (without the author's name), an abstract (150-200 words), and six key words. The main text should be properly structured with necessary headings and/or sub-headings.

Notes should be kept to a minimum and compiled as endnotes at the end of the article (just before the references). Tables and figures should not be inserted within the manuscript pages, they should be presented at the end of the manuscript. Author should, however, indicate within the manuscript the desired location of each table or figure.
