KOMENTAR / ULASAN PEER REVIEW

• Kelengkapan dan kesesuaian unsur	Artikel ini memiliki kelengkapan isi yang baik terdiri dari introduction,literature review,hingga pada penulisan kesimpulan yang lengkap
• Ruang lingkup dan kedalaman pembahasan	Telah disajikan dengan mendalam dengan cakupan teorikal yang baik seperti RBV, relational capability, innovation capability, Value co-creation dan competitive advantage sebagai dasar dalam mengembangkan model penelitiannya. Namun demikian argumentasi yang kurang kuat nampak dalam menjelaskan bahwa kapabilitas relasional berpengaruh pada kapabilitas inovasi, yang dalam artikel justru pembahasannya berfokus pada value cocreation, bukan pada innovation capability
• Kecukupan dan Kemutakhiran Data & Metodologi	Data disajikan dengan metode yang baik dengan cakupan yang baik untuk sebuah artikel jurnal
• Kelengkapan unsur dan kualitas penerbit	Penerbit jurnal ini adalah baik dengan indeksasi scopus Q3 yang baik.
Indikasi plagiasi	Tidak ada indikasi plagiasi
• Kesesuaian bidang ilmu	Menurut pendapat kami, konten artikel ini sesuai dengan bidang studi ilmu manajemen

Does institutional intervention play a role in small business clustering? An empirical evidence from Semarang, Indonesia (Article)

Pudjiarti, E.S.^a Suharnomo, S.^b ^aDepartment of Management, Faculty of Economics and Business, UNTAG University, Semarang, Central Java 50133, Indonesia^bDepartment of Management, Faculty of Economics and Business, Diponegoro University, Semarang, Central Java 50133, Indonesia

Abstract

[View references \(59\)](#)

This study examines the effect of relational capability on competitive advantage to support innovation and value co-creation capacity. Five hypotheses were tested by structural equation modeling. The population of this study included 332 small and medium-sized enterprises (SMEs) entrepreneurs united in the Forum for Economic Development and Employment Promotion in Semarang categorized into a milkfish cluster, batik cluster, food processing cluster, and handicrafts cluster. A total of 188 SMEs were selected as the sample through random sampling stratification. The data was tested using AMOS software version 22. The results show that relational capability has a significant effect on innovation capability, value co-creation capacity, and competitive advantage. Furthermore, value co-creation capacity and innovation capability have a positive effect on competitive advantage. In this regard, relational capability and value co-creation capacity allow SMEs to increase their ability to adapt to environmental changes and to create new capability. The conclusion of this study is that SMEs must have capabilities to develop potential, expanding and enriching business networks and make-business development strategies in order to achieve sustained competitive advantage. © 2018, SRAC - Romanian Society for Quality.
