The analysis of corporate tax rates, interest rate spread (IRS), and economic growth on foreign direct investment in asean 6 during 1998–2013 (Article)

Sasana, H.

Faculty of Economics and Business, Diponegoro University, Semarang, 50275, Indonesia

Abstract

[View references \(12\)](#)

This aim of this study was to analyze the influence of corporate tax, Interest Rate Spread (IRS), and the economic growth of the Foreign Direct Investment (FDI) in ASEAN 6 in 1998–2013. This study applied multiple regression analysis. The result showed that the variables of the corporate tax rate, the Interest Rate Spread (IRS), and the economic growth have a significant effect on the growth of the FDI in ASEAN 6. Partially, the corporate tax rates have a negative and significant impact on the development of the FDI in ASEAN 6. The Interest Rate Spread (IRS) and the economic growth have a positive effect but not significant to the growth of the FDI. © 2017 American Scientific Publishers. All rights reserved.
