Catatan Penilaian artikel oleh Reviewer :

1. Kesesuaian dan kelengkapan unsur isi prosiding:

Artikel ini sudah ditulis sesuai dengan unsur-unsur yang lazim ditemukan dalam prosiding. Title disajikan dengan ringkas dan menunjukkan variabel penelitian serta desain penelitiannya. Abstract tergolong padat dan jelas, Introduction sudah mereview perkembangan riset terbaru mengenai eksplorasi karir, dan menunjukkan gap pentingnya status sosial-ekonomi dijadikan variabel moderator dalam hubungan antara aspirasi karir dan eksplorasi karir. Method meliputi partisipan, instrumen, dan prosedur penelitian, Results menunjukkan analisis data yang dilakukan dan temuan yang dihasilkan, Discussion menunjukkan gambaran peran variabel moderator dalam hubungan antara variabel independent dan dependen, dan implikasinya. References, sitasi di dalam teks, dan tata tulis yang digunakan dalam artikel mengikuti APA Publication Manual 6th Edition.

2. Ruang lingkup dan kedalaman pembahasan:

Artikel membahas tentang peran status sosial ekonomi sebagai variabel moderator dalam hubungan antara aspirasi karir dan eksplorasi karir. Judul ini cukup orisinal karena belum ada penelitian yang membahas bagaimana peran status sosial-ekonomi dari persepsi subjektif partisipan dalam kaitan antara variabel independent dan dependen. Isi artikel cukup komprehensif menjelaskan hasil temuan yang diperoleh, serta menyajikan kebaruan dinamika psikologis dari variabel-variabel yang terlibat dalam penelitian tersebut.

3. Kecukupan dan kemutakhiran data/informasi dan metodologi:

Data yang disajikan untuk artikel ini tergolong cukup memadai karena melibatkan 590 siswa dari 2 sekolah menengah atas di Semarang. Data dianalisis secara mutakhir dengan metode analisis data yang relevan, yaitu hierarchical regression analysis, yang penggunaannya sudah sesuai dengan tujuan penelitian yang ingin dicapai. Orisinalitas artikel tergolong memadai, yang ditunjukkan dengan Turnitin similarity indeks = 10%, dan 80% referensi yang digunakan merupakan terbitan 10 tahun terakhir.

4. Kelengkapan unsur dan kualitas penerbit:

Artikel ini dimuat di prosiding internasional yang terindeks Google Scholar dengan ISSN 2352-5398. Prosiding ini diterbitkan dalam seri Advances in Social Science, Education and Humanities Research, volume 399 oleh Atlantis Press, dengan kredibilitas yang baik dan kualitas memadai.

The Role of Socioeconomic Status in the Relationship Between Career Aspirations and Engagement in Career Exploration

DR Sawitri, B Suryadi - International Conference on Educational ..., 2020 - atlantis-press.com

Career exploration captures the gathering of information relevant to career progress. Career explorations in adolescents are crucial to examine, as they are essential actions required to realise one's career aspirations. Career aspirations are important to study, as they are forerunners to future career choices and attainment. However, little is known about how socio-economic status influences the relationship between career aspirations and career exploration. This study aimed to investigate the moderating role of socio-economic status in ...
