Coverage 1968-ongoing

Scope The Journal of Non-Crystalline Solids publishes review articles, research papers, and Letters to the Editor on amorphous and glassy materials, including inorganic, organic, polymeric, hybrid and metallic systems. Papers on partially glassy materials, such as glass-ceramics and glass-matrix composites, and papers involving the liquid state are also included in so far as the properties of the liquid are relevant for the formation of the solid. In all cases the papers must demonstrate both novelty and importance to the field, by way of significant advances in understanding or application of non-crystalline solids; in the case of Letters, a compelling case must also be made for expedited handling.

Hi

I have a paper published in the Journal of Non-Crystalline Solids (Townsend, PD; Can, N; Chandler, PJ; Farmery, BW; Lopez-Heredero, R; Peto, A; Salvin, L; Underdown, D; Yang, B. Comparisons of tin depth profile analysis in float glass. JOURNAL OF NON-CRYSTALLINE SOLIDS. 223 - 1-2, pp. 73 - 85. ELSEVIER SCIENCE BV, 01/01/1998. ISSN 0022-3093, ISSN 1873-4812).

I would like to know the QUARTILES DATA for this year 1998.

Thanks in advance.

Raquel
