

KIAT MENULIS ARTIKEL ILMIAH DI JURNAL NASIONAL & INTERNASIONAL

Oleh: Dr. Istadi (Teknik Kimia Universitas Diponegoro)

Workshop Pengembangan Jurnal Ilmiah Konsorsium Ilmu (20-21 Agustus 2007)

Center for Quality Development and Assurance (CeQDA)

Pusat Peningkatan dan Jaminan Mutu (PPJM), Universitas Islam Negeri (UIN) Syarif Hidayatullah Jakarta 2007

How about Indonesian Research Publications ?

- Up to 50% Authors in international journal are Chinese and Japanese → **Wonderful**
- **Strength**: Research in Indonesia → Actually Good & Applicable
- **Low motivation** to publish in international journals
- Up to date literatures are not available in **Indonesian Libraries**
- While, each Malaysian University has up to thousand online journals → **Challenges**
- Finally → **Indonesian Universities** are not known abroad

What are the Challenges?

- Writing **Research Paper/Report** ?
- Publish in **Journal** (National/International) ?
- Propose a **patent** ?
- Bother ?? Why ??
- Too difficult ?
- I have no time ??
- I have no research ??

Lebih baik mencoba
daripada
TIDAK SAMA SEKALI

**Bagaimana memotivasi/membudayakan
PENELITIAN dan PUBLIKASI ?**

Why We Need to Write/Publish in Journals?

- Dissemination of research output
- Contribution to world knowledge
- Enhance author prestige (recognition, networking, promotion)
- Enhance University recognition and reputation (ranking, student intake, research funding) → **Top World University**
- Critical reviewing by subject specialists
- We know the status of our research whether it has new contribution or not
- Enlarging/International networking
- Finally, **personal satisfaction**.
- Any other awards? (DIKTI, University, Credit Point)

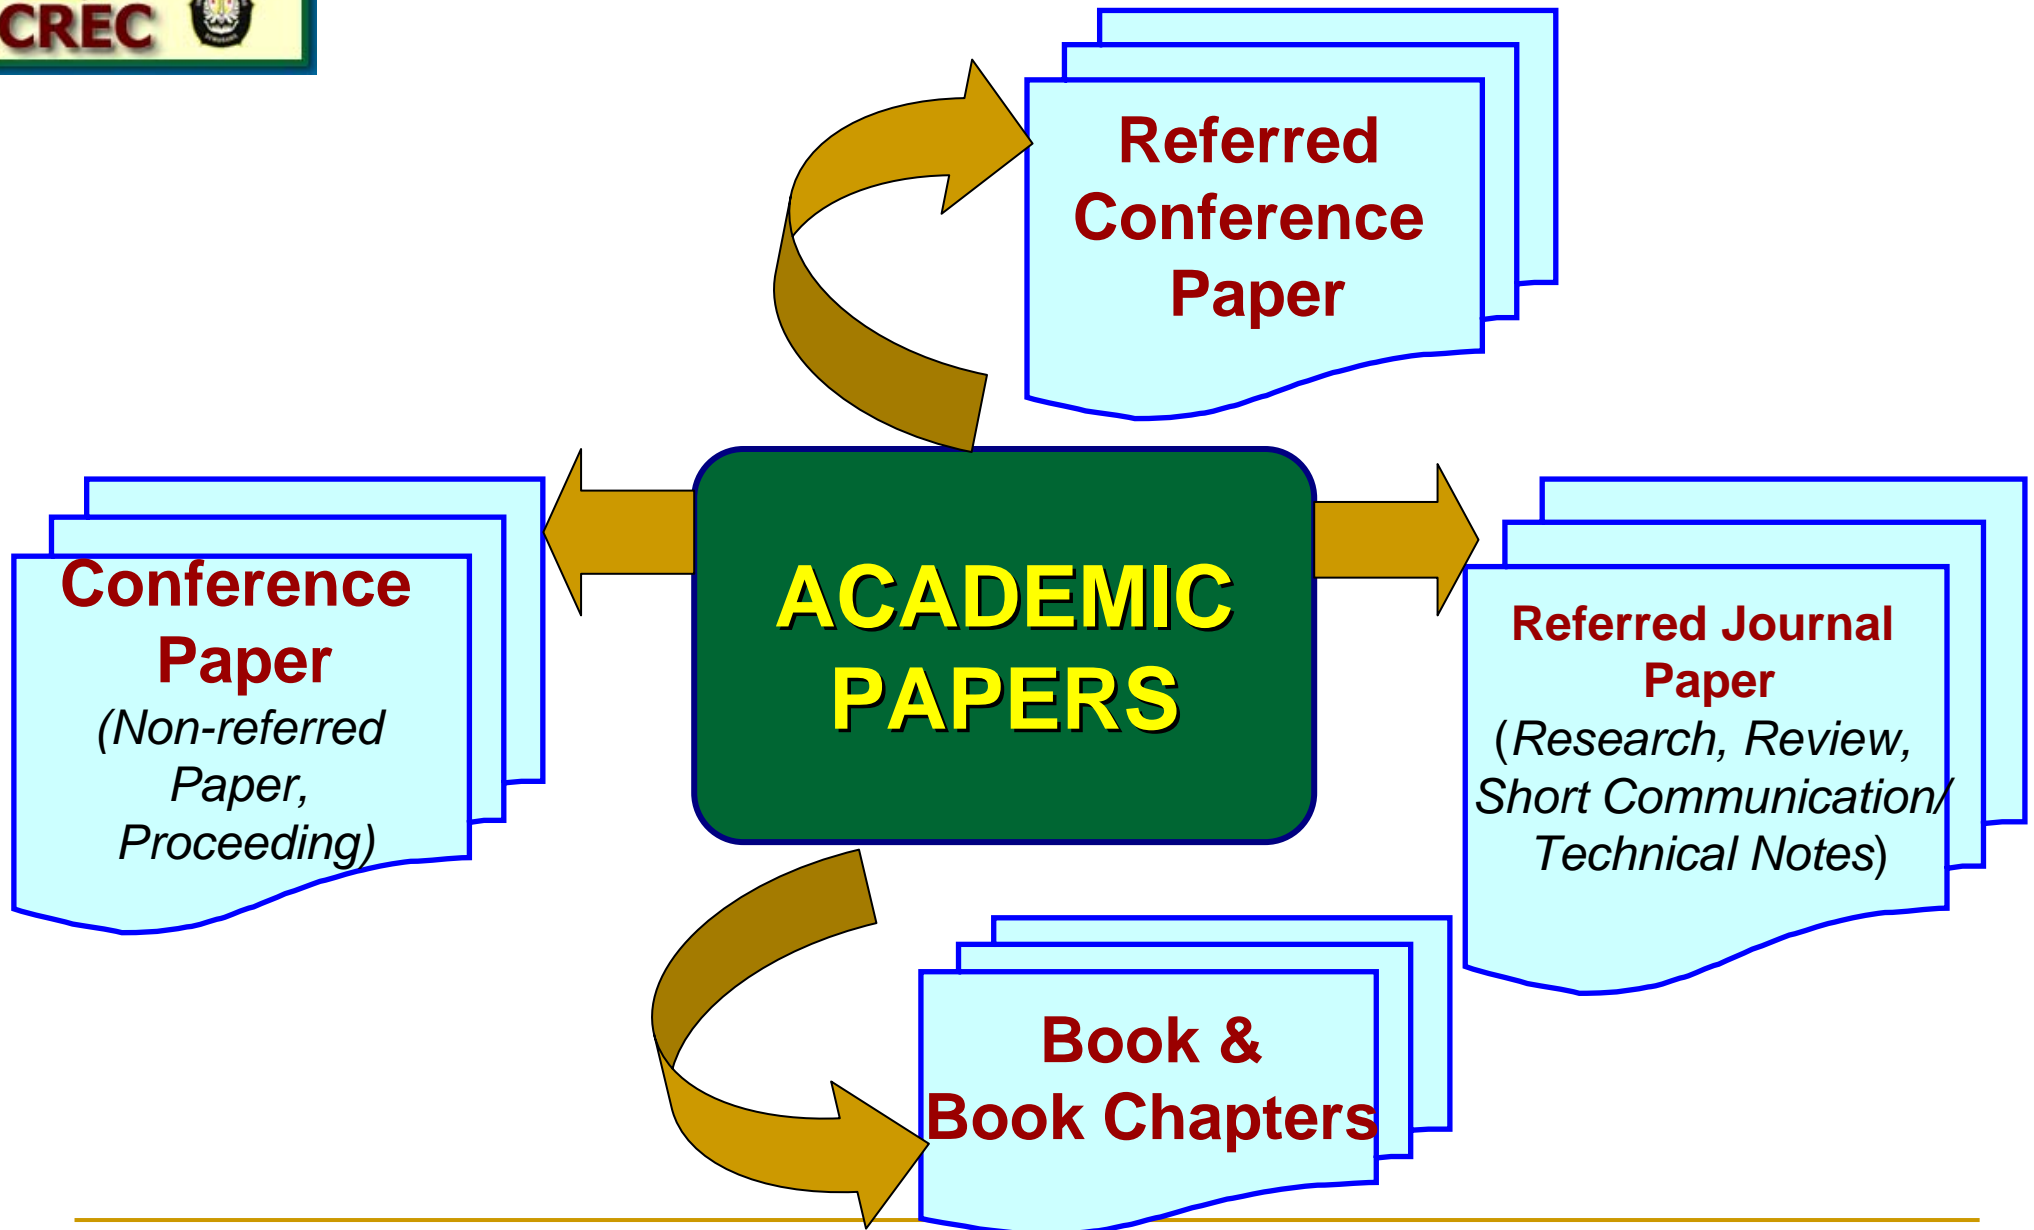

Could I publish in Accredited National Journals or International Journal?

DEFINITELY

YES ... YES ... YES

Types of Academic Papers?

Journal Citation Rating / Impact Factor

**Bagaimana
Jurnal Internasional
Dikatakan
BERKUALITAS
?**

**Ditentukan oleh:
JCR (Journal Citation Rating)
or
IF (Impact Factor)**

- Impact Factor is a ratio of the number of article that cited to the journal to the number of article published by the journal

Just Released: 2005 Impact Factors*

Thanks to your continued support and commitment, our journals in the field of **Chemical Engineering** have achieved outstanding results in the recently-released JCR Impact Factors.

To be part of this continued success, visit our journals at www.sciencedirect.com today.

*Journal Citation Reports®, published by Thomson Scientific, 2005

Kriteria Penilaian Akreditasi Jurnal - DIKTI

- Penamaan Berkala (5)
- Kelembagaan Penerbit (5)
- Penyuntingan (21)
- Penampilan (9)
- Gaya Penulisan (11)
- **Substansi Isi (36)**
- Keberkalaan (10)
- Kewajiban Pasca Terbit (3)

Artikel yang Berkualitas

What is Suitable Journals for Your Paper ?

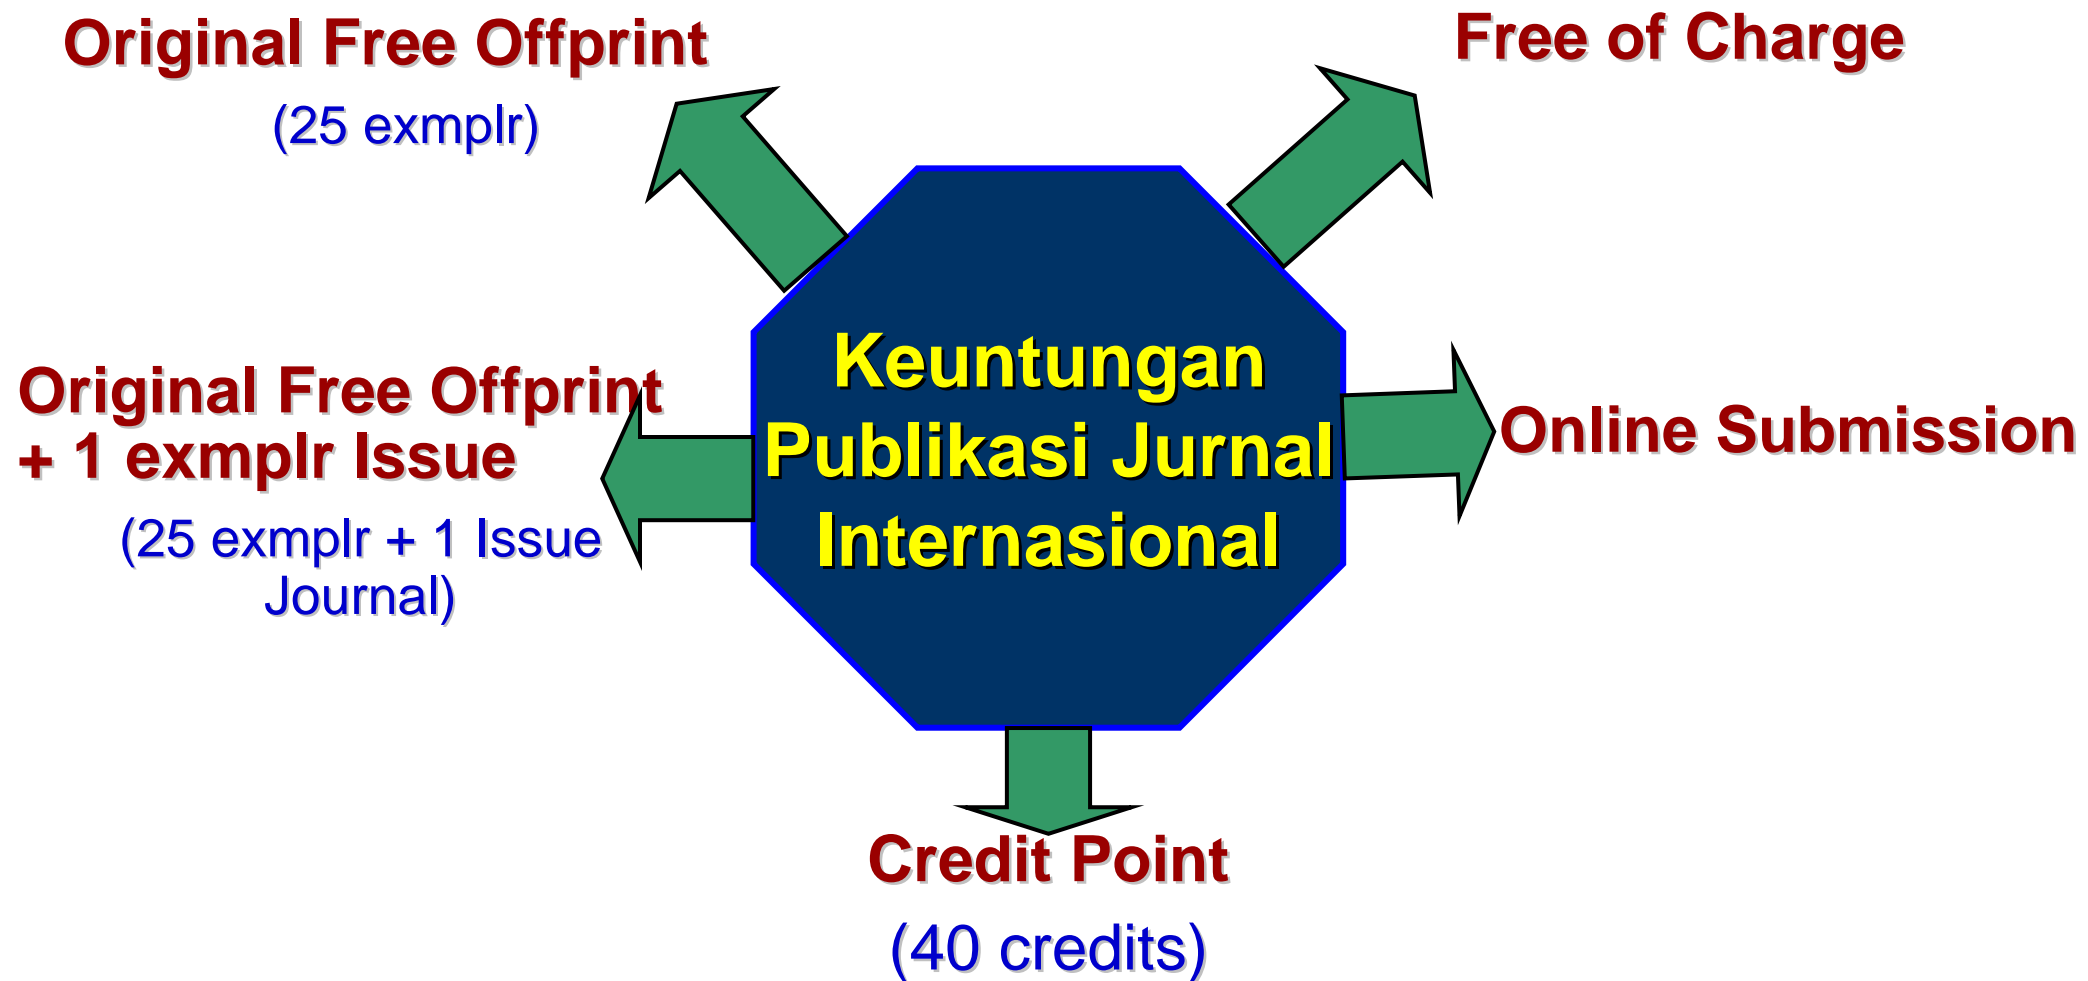

- Quality of Research Output → Decide on subject area
- Read the types of articles in Most Suitable Journals
- Decide on type of journal paper (*Research Art., Review Art., Short Communications, etc.*)
- Read papers from that journal if you are not familiar with the journal
- Read the AUTHOR GUIDELINES

Very Important

Keuntungan Publikasi di Jurnal Internasional ?

- **Dikenal** orang/Peneliti lain di level Internasional

Mengapa Perlu Proses Peer-Review ?

Mempunyai peran penting dalam menjaga standar tinggi kualitas suatu jurnal ilmiah

Untuk memastikan bahwa artikel yang dipublikasi di jurnal ilmiah tertentu mempunyai kualitas saintifik yang baik dan standard

Siapa Yang Menjadi Reviewer ?

- Reviewer/Referee dipilih oleh Editor jurnal berdasarkan atas **expertise/keahlian** mereka
- Editor jurnal selalu menambah **koleksi Referee** dari waktu ke waktu berdasarkan track record Referee
- Referee juga dapat diperoleh dari **searching di jurnal** yang dilakukan oleh Editor
- Semakin banyak kita publish di Jurnal International maka kita akan semakin dikenali oleh Editor. Bahkan suatu saat kita bisa diundang oleh Editor untuk **menjadi Reviewer**
- Biasanya jurnal selalu minta saran **List of Potential Referee** ketika anda men-submit-kan paper, paling tidak 3-5 potential reviewer.

First Fast Review (Before Peer-Reviewed)

- Evaluasi pertama → **skop artikel** (Jika skop jurnal tidak sesuai maka langsung di-*reject*. Jadi pilihlah jurnal dengan skop yang sesuai)
- Bahasa → **English Grammar**. (Jika English grammar sangat tidak standard biasanya artikel tersebut langsung di-*reject* tanpa review lanjut)
- Artikel yang ***Accepted* tetapi English-nya kurang baik** → maka Reviewer akan meminta penulis untuk membetulkan grammarnya, tetapi Reviewer tidak akan me-review atau memberi komentar/saran dimana letak English yang tidak betul.

Aspek-Aspek Penting yang di-Review

- **Originality** (asli karya sendiri atau tidaknya hasil paper riset). Biasanya *Referee* akan melakukan search dan membandingkan terhadap artikel-artikel terdahulu di jurnal. Untuk Elsevier, *Referee* diberi hak untuk akses searching jurnal melalui SCOPUS selama sebulan, agar dia bisa akses artikel walaupun tidak berlangganan). Penulis sebaiknya bisa *proof*-kan keaslian dari teknologi yang diekspos, lebih baik secara eksplisit di bagian *Introduction* dan ditegaskan lagi di *Discussion*.
- **Novelty** (dimana letak kontribusi barunya di ilmu pengetahuan). Kebaruan dari artikel sebaiknya dibuktikan secara eksplisit di dalam teks artikel atau secara singkat di bagian pendahuluan. Artikel harus merujuk kepada paper-paper yang baru agar letak novelty-nya terbukti.
- **Metodologi** (tepat atau tidaknya metodologi digunakan untuk menyelesaikan masalah)

Aspek-Aspek Penting Yang Di Review(2)

- Harus memenuhi **kode etik penulisan** (tidak boleh duplikasi terhadap riset orang lain).
- **Presentasi hasil riset** harus jelas dan data-data yang dihasilkan harus menunjang/mendukung kesimpulan. Kadang-kadang jika hasil riset tidak signifikan dan tidak menunjang kesimpulan, paper akan di-*reject*
- **Signifikansi hasil riset** dalam paper. Hasil penelitian harus signifikan dan lebih baik dari riset-riset yang terdahulu serta menunjang Kesimpulan.
- Apa saja yang **diklaim di Kesimpulan** harus betul-betul di-support oleh data penelitian yang signifikan

Keputusan Diterima/Tidaknya Suatu Manuskrip/Artikel

- **Jumlah Reviewer** → hak Editor untuk menentukan
 - Biasanya: **2-3 Reviewer** → satu manuscript
 - Jika 1 Referee menyatakan Accepted (with major/minor revision) dan 1 Referee lagi juga Accepted (with major/minor revision), biasanya Editor akan memutuskan **Accepted with Revision**.
 - Jika 1 Referee menyatakan Accepted dan 1 Referee yang lain menyatakan Rejected, biasanya Editor akan memilih **tambahan satu Reviewer lagi**, jika Accepted, maka paper itu akan Accepted with major or minor revision.
 - Namun jika kedua Referee menyatakan Rejected, maka otomatis paper itu akan **Rejected**. Tetapi pernah ada satu paper dengan jumlah reviewer 4 orang
-

TEKNIK PENYIAPAN MANUSKRIP / ARTIKEL

Strategi Penyiapan Artikel Jurnal Internasional ?

Penyiapan Manuskrip Revisi

Perlu strategi dan berhati-hati dalam menjawab pertanyaan Reviewer

Penyiapan Manuskrip Awal

Penyiapan Corrected Proof

Bagaimana dengan penulisan NAME OF AUTHORS?

- Semakin banyak **jumlah Authors** suatu artikel, maka artikel semakin bernilai/ berbobot
- **Corresponding Author** harus ditandai (misalnya tanda *)
- Corresponding Author **tidak harus** sebagai Penulis pertama
- Siapa yang berhak menjadi Penulis Pertama ?
(*"yang menyiapkan/membuat paper yang berhak sebagai Penulis Pertama"*)

Apa saja yang harus ditulis di INTRODUCTION?

- Deskripsikan **Background** secara umum di paragraf awal, biasanya dikaitkan dengan isu-isu global dan ilmiah, dilanjutkan dengan Background yang lebih spesifik
- Deskripsikan **Permasalahan** yang akan diselesaikan kaitannya dengan background.
- Deskripsikan **letak kebaruan** dari teknologi yang digunakan untuk menyelesaikan Permasalahan.
- Letak kebaruan atau kontribusi baru terhadap ilmu pengetahuan harus dibuktikan dengan **perbandingannya dengan teknologi yang sudah ada**, sehingga sangat perlu referensi artikel jurnal yang mutakhir.
- Bagian akhir Introduction dilengkapi dengan **tujuan spesifik dari artikel** yang ditulis.

Apa saja yang harus ditulis di MATERIALS AND METHODS atau METHODOLOGY ?

- Deskripsikan **Bahan-bahan Penelitian** secara detil, bila perlu cantumkan merk dan kemurnian dari bahan-bahan kimia yang digunakan. **Prosedur penelitian** disampaikan dalam bentuk cerita.
- **Merk** peralatan analisis yang digunakan juga perlu dicantumkan, misalnya Gas Chromatography (HP Agilent 6890 Series), cantumkan juga perlengkapan-perengkapan lainnya misalnya jenis kolom, panjang kolom, etc.
- **Metode penelitian atau metode statistik** yang digunakan harus saintifik. Jika ada optimasi, gunakanlah metode optimasi yang saintifik dan memperhatikan interaksi antar variabel.
- **Gambar rangkaian peralatan** harus dideskripsikan dengan jelas.
- **Metode Penelitian** harus bisa menyelesaikan permasalahan

Apa saja yang harus ditulis di RESULTS AND DISCUSSION?

- Tampilkan data hasil penelitian dalam bentuk **GRAFIK** atau **TABLE**, mana yang lebih tepat, namun jangan overlapping
- Hasil penelitian harus **SIGNIFIKAN** dan mempunyai **KONTRIBUSI BARU** bagi ilmu pengetahuan serta menyelesaikan permasalahan
- **DESKRIPSIKAN** penyelesaian permasalahan secara jelas, kemudian diskusikan lebih mendalam **MENGAPA** hal itu terjadi
- **BANDINGKAN** hasil penelitian atau diskusinya dengan pendapat orang lain atau penelitian sebelumnya (jurnal/prosiding).
- Pembahasan harus singkat tapi jelas dan ilmiah

Bagaimana Membuat CONCLUSIONS yang baik?

- Kesimpulan harus ditulis berdasarkan/merujuk **TUJUAN PAPER** yang tertulis di bagian akhir Introduction
- Klaim yang ada di kesimpulan harus **didukung oleh data-data** hasil penelitian yang signifikan (*jika tidak biasanya REJECTED*)
- Write Conclusions **as concise as possible.**
- Tips: jangan pernah membuat klaim kesimpulan yang terlalu muluk-muluk tetapi tidak didukung oleh data yang signifikan,
contoh: “..... **was successfully developed**”

Apa saja yang harus ditulis di **ACKNOWLEDGMENT?**

- Tuliskan ucapan terima kasih kepada **PENYANDANG DANA PENELITIAN**
 - Tuliskan juga ucapan terima kasih kepada yang membantu dengan intens terhadap penelitian yang dilakukan
-

Bagaimana dengan REFERENCES ?

- Tuliskan Daftar Pustaka yang **"UP TO DATE"**, sebaiknya merujuk ke jurnal
- Gunakan **sistem rujukan** "numbering" atau "Author, year", harus konsisten.
- Semua pustaka yang dirujuk di teks harus didaftarkan di Daftar Pustaka, demikian juga sebaliknya
- Sebaiknya **merujuk ke jurnal yang akan di-submit**

Tip-Tip Penting Lainnya

- **Manuscript tidak terlalu panjang.** Tulislah artikel secara singkat tapi jelas dan lengkap.
- Gunakan **satuan dan dimensi** yang seragam. Sebaiknya gunakan sistem satuan SI (Sistem International)
- **References** harus ditulis sesuai dengan format jurnal dimana artikel akan disubmitkan.
- Data-data hasil riset harus dipresentasikan secara jelas, pilih salah satu apakah dalam bentuk **grafik atau tabel**, dan tidak boleh duplikasi antara grafik dan table.
- Grafik/gambar biasanya dipresentasikan dalam **file jenis TIFF (.tif), JPEG (.jpg), atau Postscript (.eps)**, satu file per gambar.

Tip-Tip Penulisan Jurnal Lainnya (2)

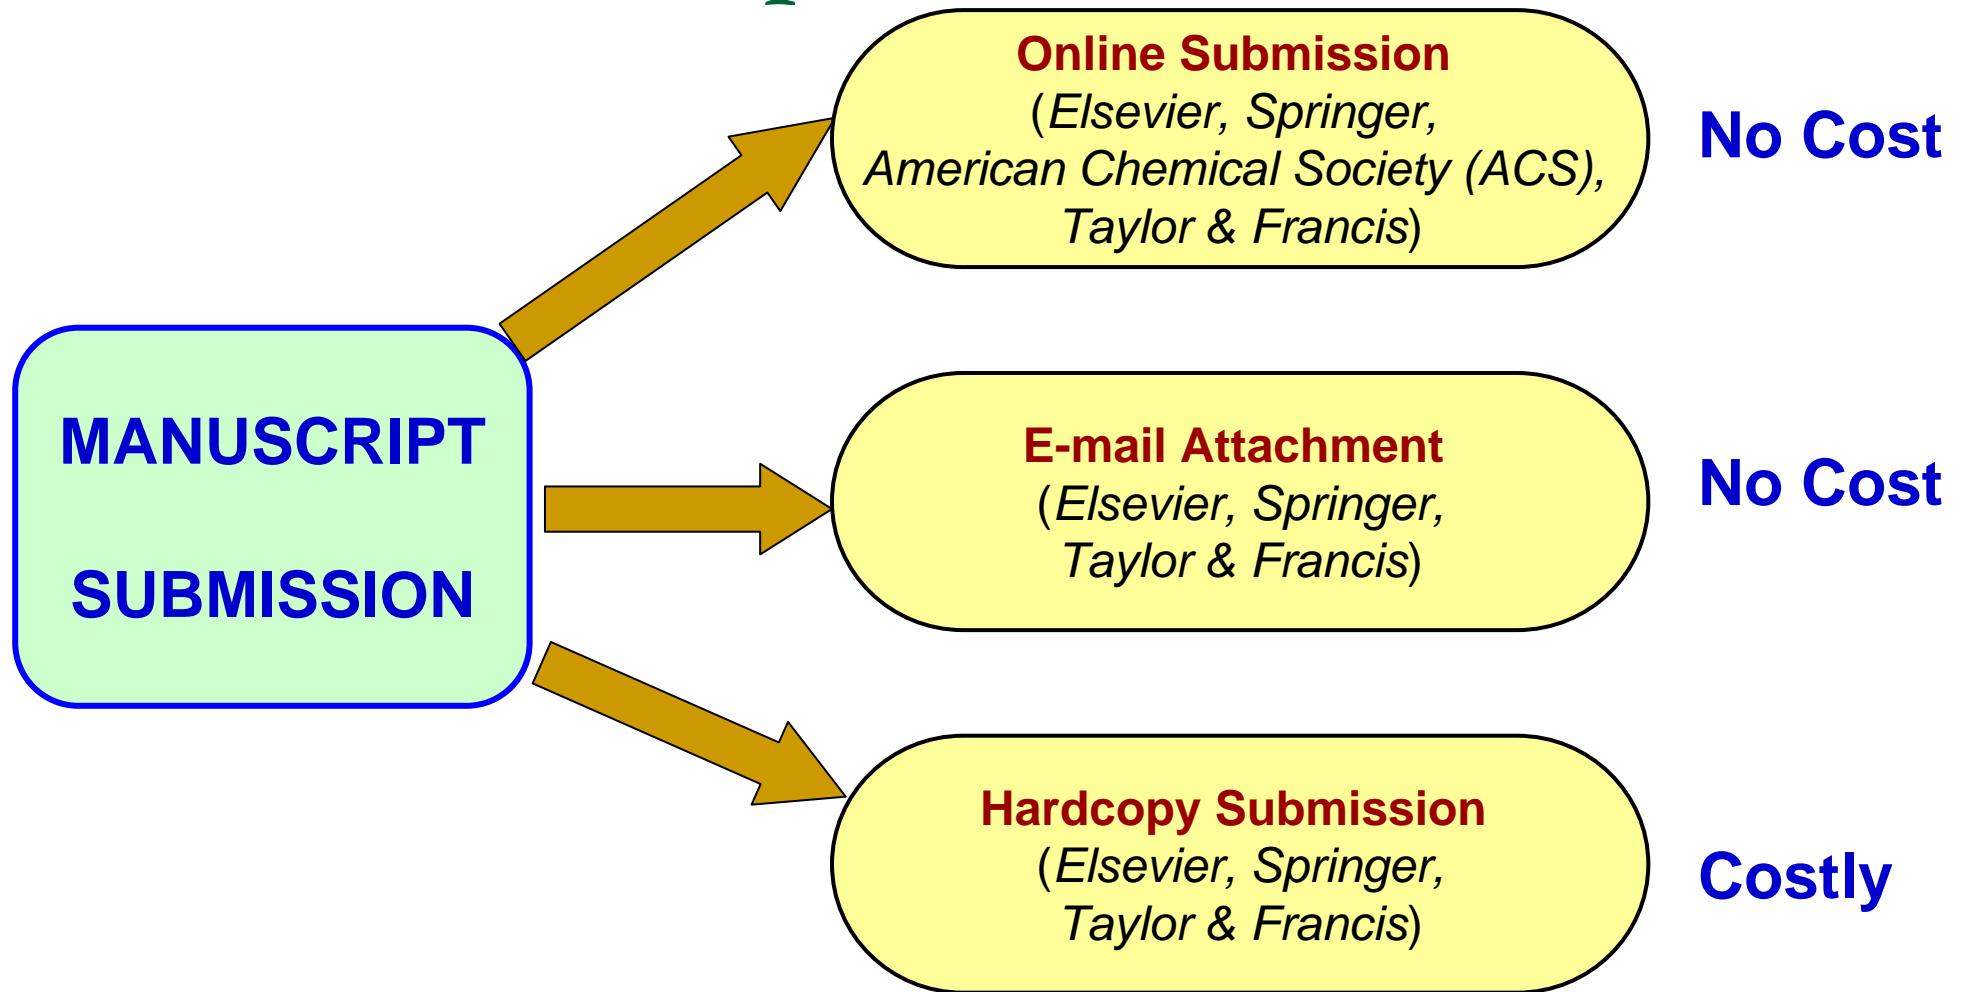

- **Kualitas grafik** harus jelas dan baik, sehingga ketika diedit di jurnal setelah dikecilkan ukurannya, font size tetap dapat terbaca. Tebal garis harus mencukupi.
- Deskripsikan **prosedur percobaan** atau **metodologi** secara jelas dan berturutan sehingga menjamin dapat diulang prosedurnya dengan hasil yang relatif sama oleh pembaca.
- Biasanya manuscript harus ditulis dalam **2 spasi** menggunakan font **Times New Roman** dan left justified. Teks artikel ditulis dengan urutan (kadang-kadang setiap jurnal berbeda permintaannya): *Title, Authors name, Authors address, Abstract, Keywords, Introduction, Materials and Method, Results and Discussion, Conclusions, Acknowledgment, References, Figure Captions, Tables file, Figures files.*

HOW TO SUBMIT A MANUSCRIPT TO INTERNATIONAL JOURNALS

Bagaimana Cara Men-submit Manuskrif?

SCIENCE @ DIRECT

Manuscript Documents

- All Text Document in MS Word or Latex
 - **Covering Letter** (singkat & padat, to the point)
 - **Text Manuscript** (Title, Abstract, Introduction, Materials and Method, Results & Discussion, Conclusion, Acknowledgment, References, Figures Caption)
 - **Tables** (compact in one file, no vertical line)
 - **Figures** (separate file per figure, TIFF format is preferable)
-

Tahap-tahap Online Submission

- Pilih menu REGISTER untuk **register account** baru sebagai Author
 - **Lengkapi isian** di menu Register selengkap mungkin, konfirmasi akan dikirim melalui email termasuk password.
 - **Login sebagai Author** menggunakan user login yang sudah di-create
-

- ❑ Masukkan **Title of Manuscript**
- ❑ Pilih **Article Type**: Research Article, Review Article, Short Communication, Book Review, atau Erratum
- ❑ Masukkan **Authors Name** dan urutan Author Name
- ❑ Masukkan **Abstract**
- ❑ Masukkan **Key Words**
- ❑ Pilih **Document Classifications** (beberapa jurnal tidak ada)
- ❑ Masukkan **Comment to Editor** (bukan Covering Letter, optional). Kadang-kadang Editor dapat dipilih.
- ❑ **Upload/Attach Documents Files** (sesuai urutan Covering Letter, Manuscript, Tables, Figures). Jika tidak urut, bisa diurutkan kembali.
- ❑ Biasanya beberapa jurnal minta saran **Reviewer** (4-5 orang)
- ❑ Jika semua document sudah diupload, maka **PDF document** akan di-create oleh server.
- ❑ Cek dokumen PDF yang sudah jadi, jika semua oke, klik pada **Submission Approval**.

EES Version: 4.0

Journal of Food Engineering

Welcome to the online submission and editorial system for *Journal of Food Engineering*.

The journal publishes original research and review papers on any subject at the interface between food and engineering, particularly those of relevance to industry, including:

Engineering properties of foods, food physics and physical chemistry processing, measurement, control, packaging, storage and distribution; engineering aspects of the design and production of novel foods and of food service and catering; design and operation of food processes, plant and equipment; economics of food engineering, including the economics of alternative processes.

Accounts of food engineering achievements are of particular value.

Hints:

Are you a new EES user? Please select [register](#) from the menu at the top and enter the requested information.

Are you an existing EES user for this journal? You do not need to re-register. Select [log in](#) from the menu at the top, enter your username and password and then click the appropriate log in button. If your email or other address details change, you can update your EES account by selecting "change details" after you log in.

[Artwork instructions](#)

For each item you wish to submit, scroll down and:

1. Select the appropriate **Item** (e.g., Figure) from the drop-down list. Mandatory Items are marked with an asterisk *.
2. Enter a **Description** in the text box (e.g., cover letter, manuscript, etc.). Please include the line numbers in the manuscript. For each figure and table, please include the appropriate figure/table number in the **Description** text box (e.g., Figure 3). This helps the **Editor and reviewers** to identify the figure/table in the PDF.
3. Click **Browse**. In the open window, select the file on your computer (original source file, not a PDF).
4. Click **Open**. The File Name field is automatically filled in.
5. Click **Attach This File**.
6. Repeat steps 1-5 to attach the next submission Item
7. When all **Items** have been attached, click **Next** at the bottom of the page.

Note 1: Do not embed figures, graphics or photos in the manuscript text file. Please upload each figure file individually. Elsevier's preferred file formats are [EPS](#), [TIFF](#) and [PDF](#). [MS Office](#) file formats are only allowed under certain conditions.

Note 2: Please remove individually uploaded figures and tables from your manuscript text file. Otherwise, each figure will appear twice in your PDF file.

We allow compressed files (in the formats zip, tar, tar.gz, tgz), which may be used for normal and LaTeX submissions alike.

Please upload your files in the following order: Cover letter; Manuscript (including title page and summary/abstract); Figures; Tables.

Mandatory Items are marked with an asterisk *.

Subject: CES-D-06-00806: Interim Decision

Dear Dr. Saidina Amin,

Thank you for submitting your manuscript to Chemical Engineering Science. The reviewers have made suggestions which the Editor feels would improve your manuscript. The Editor encourages you to consider these comments and make an appropriate revision of your manuscript. The reviewers' comments are below.

In addition please can you improve the English as Chemical Engineering Science will not proof read ahead of publication.

Please submit your revision online within 90 days by logging onto the Elsevier Editorial System for Chemical Engineering Science:

<http://ees.elsevier.com/ces/>

Your username is:

Your password is:

You can find the manuscript record listed under "Submissions Needing Revisions". Click "Revise" to submit your revision. (If you have forgotten your password, please click the "Forget your password" link located on the log-in screen.)

When submitting your revised paper, please include the following:

- 1) A separate document uploaded as "Response to Reviews" that carefully addresses the issues raised in the below comments, point by point. You should also include a suitable rebuttal to any specific request for change that has not been made.
- 2) A marked version (changes highlighted/marked) of your manuscript, which should be uploaded as a "Marked Revision". The clean, unmarked version usable for printing purposes should be uploaded as the "Manuscript".

To facilitate the electronic publication of your manuscript (should it be accepted), we request that your manuscript text, tables and figure legend be submitted in an editable format (Word, WordPerfect, or LaTeX only), and all figures uploaded individually as TIF or EPS files.

Example Letter: “Accept”

Extra line breaks in this message were removed.

Subject: APCATA, Editor's decision: reject, Istadi, i.istadi_20040524/1, Optimization of Proc...

Dear Dr Istadi,

On 24-May-2004 you submitted a new paper
number APCATA_i.istadi_20040524/1 to Applied Catalysis A, General entitled:

'Optimization of Process Parameters and Catalyst Composition in CO₂-OCM over CaO-MnO/CeO₂ Catalyst using Response Surface Methodology'

The Editorial reference number for this paper is: KS 2295

We regret to inform you that your paper has not been accepted for publication. Comments from the editor are:

Thank you for your submission to Applied Catalysis A: General. I regret to inform you that your manuscript has not been accepted for publication in the present form, since your manuscript seems not fit to the scope of the journal. I would like to suggest you that you'd better to submit your article to the journals related to chemical engineering oriented. In the meantime, we thank you for your cooperation, and look forward to another opportunity to work with you. Best regards,
Kohichi SEGAWA/Editor

Yours sincerely,

Kohichi SEGAWA, Ph.D.
Editor/Applied Catalysis Professor of Chemistry

Revised Submission

ACS Online Submission and Peer Review

For Authors and Reviewers of ACS Journals:

The American Chemical Society is implementing a new system for online manuscript submission and peer review called the ACS Paragon Plus Environment. ACS journals will be migrating from the ACS Paragon System on a journal-by-journal basis. During this transition period, use the list below to determine which system you should use.

Important Notice:

Manuscript submission and peer review will be unavailable for *Analytical Chemistry* and the *Journal of Medicinal Chemistry* from 9 p.m. EST Thursday, July 26, until 10 a.m. EST Monday, July 30, as we prepare the journals for the ACS Paragon Plus Environment. Please complete your work before or after this time period. We apologize for any inconvenience.

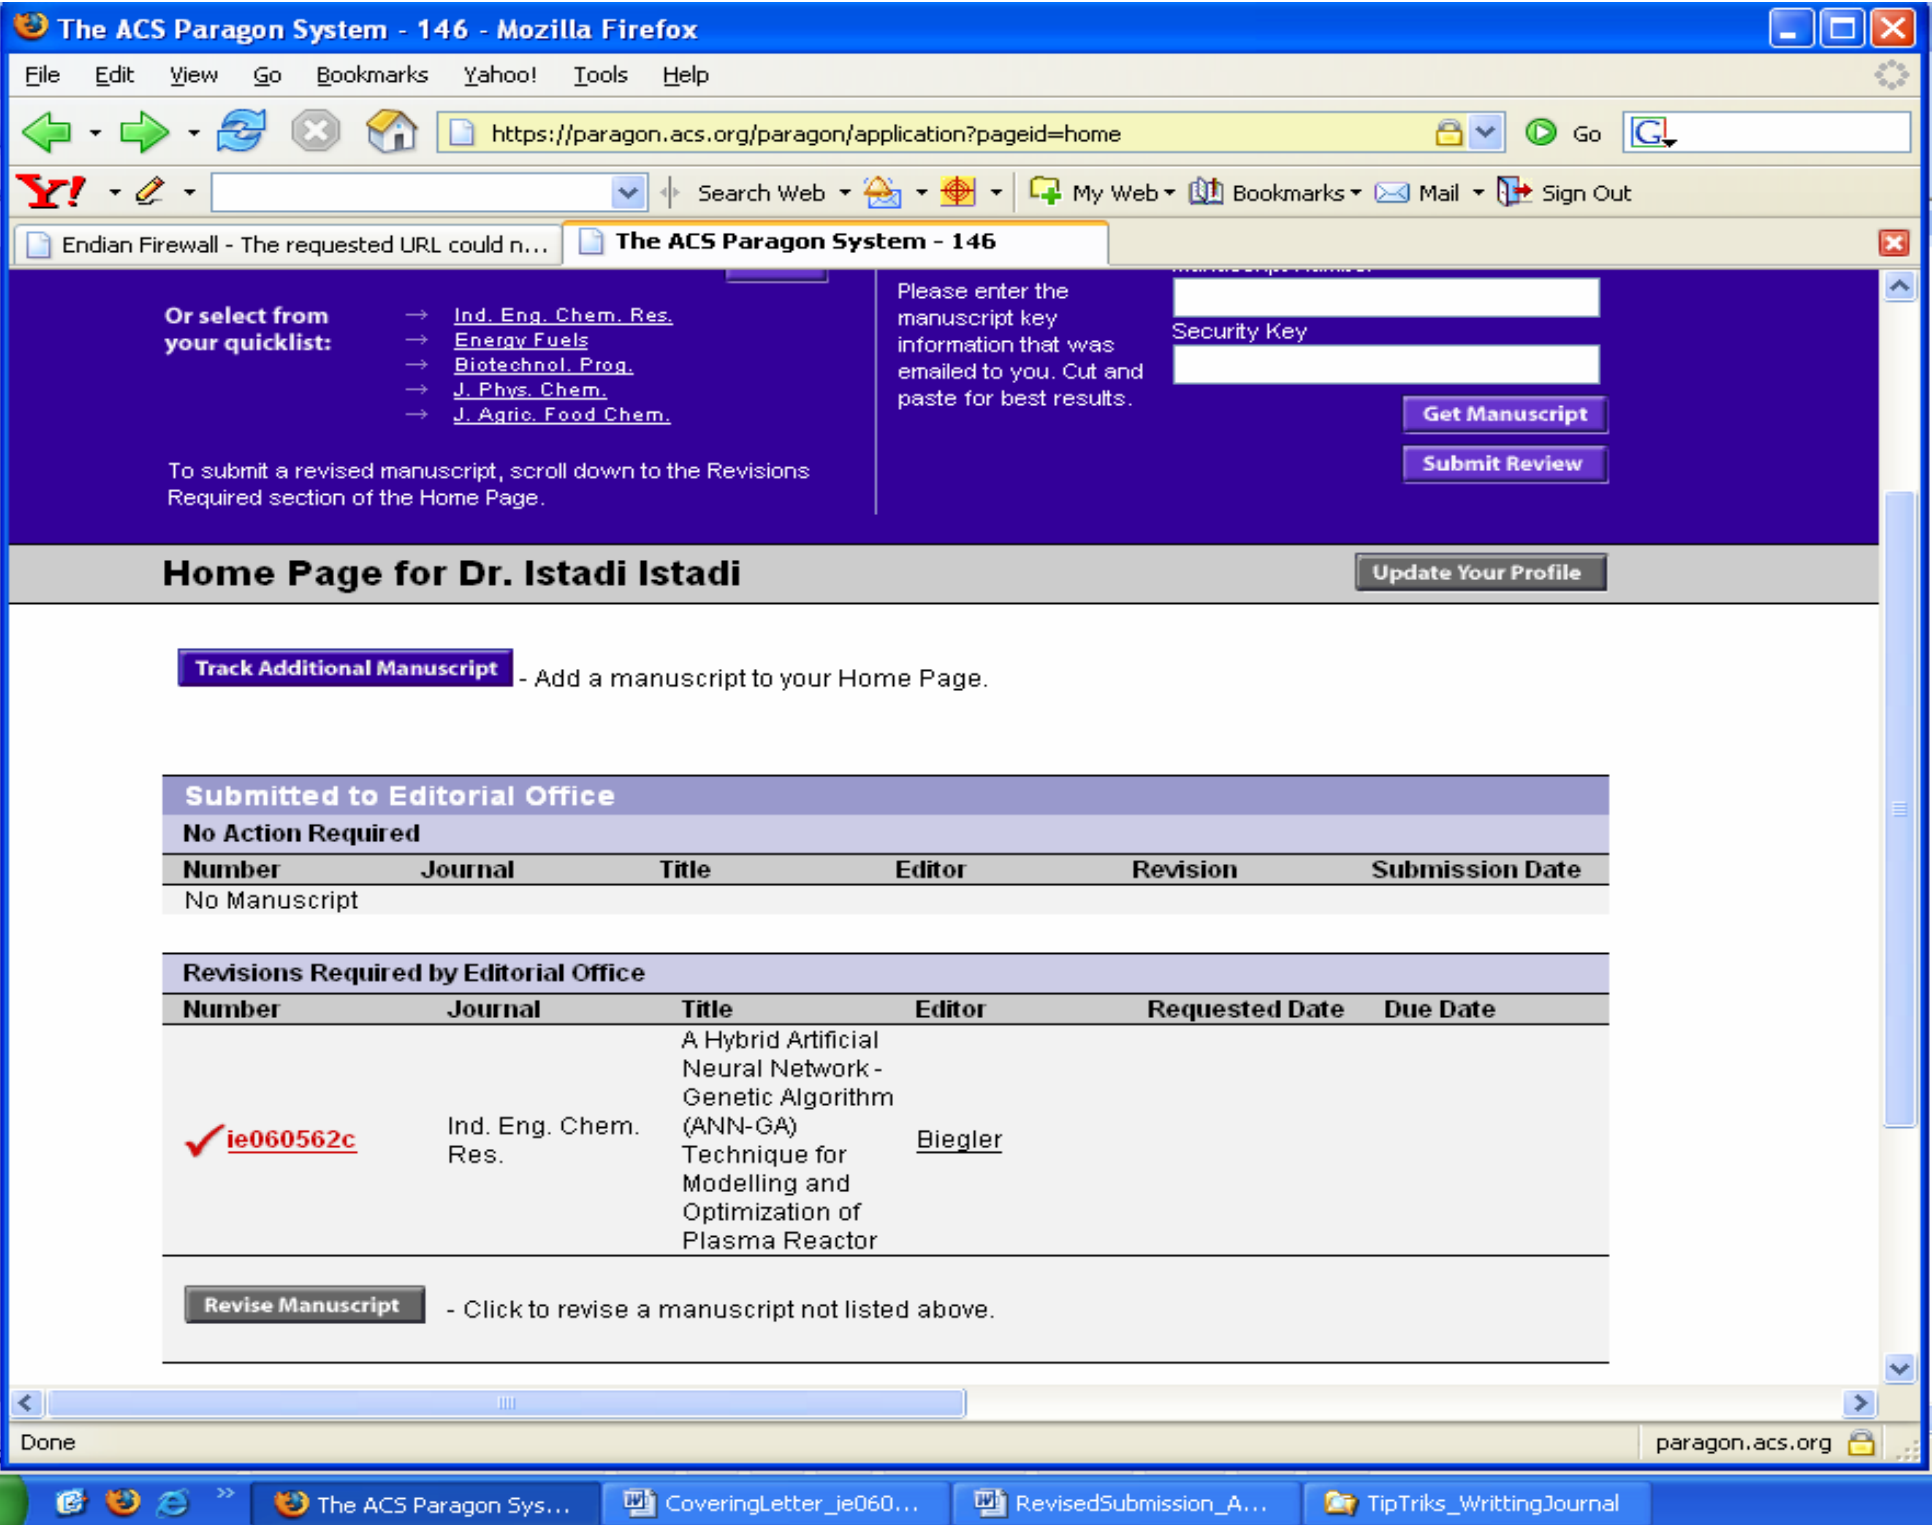

For help, please contact the [ACS Publications Help Desk](#) at (800) 227-9919 (toll-free in USA/Canada) or (202) 872-4357, from 7:30 a.m. until 6 p.m. (EST). More information about the ACS Paragon Plus Environment is available in the [Author & Reviewer Resource Center](#).

Use the [ACS Paragon System](#) for these journals:

Analytical Chemistry
 Biotechnology Progress
 Environmental Science & Technology
 Industrial & Engineering Chemistry Research
 Journal of Agricultural and Food Chemistry
 Journal of the American Chemical Society
 Journal of Medicinal Chemistry
 Journal of Natural Products
 The Journal of Physical Chemistry A
 The Journal of Physical Chemistry B
 The Journal of Physical Chemistry C
 Journal of Proteome Research
 Macromolecules
 Nano Letters

Use the new [ACS Paragon Plus Environment](#) for these journals:

Accounts of Chemical Research
 ACS Chemical Biology
 ACS Nano
 Biochemistry
 Bioconjugate Chemistry
 Biomacromolecules
 Chemical Research in Toxicology
 Chemistry of Materials
 Crystal Growth & Design
 Energy & Fuels
 Inorganic Chemistry
 Journal of Chemical & Engineering Data
 Journal of Chemical Information and Modeling
 Journal of Chemical Theory and Computation
 Journal of Combinatorial Chemistry
 The Journal of Organic Chemistry
 Langmuir
 Molecular Pharmaceutics
 Organic Letters
 Organic Process Research & Development
 Organometallics

Or select from your quicklist:

- [Ind. Eng. Chem. Res.](#)
- [Energy Fuels](#)
- [Biotechnol. Prog.](#)
- [J. Phys. Chem.](#)
- [J. Agric. Food Chem.](#)

To submit a revised manuscript, scroll down to the Revisions Required section of the Home Page.

Please enter the manuscript key information that was emailed to you. Cut and paste for best results.

in the Progress Meter at the right.

Your manuscript revision will not be submitted to this journal until you see the "Thank You" page. You may stop the process at any time before completing Step 4 and return later to complete your submission.

Please note that one corresponding author must be designated in the ACS Paragon System for the purpose of peer review and galley proof delivery.

Please check here to indicate that your references match the format used in the journal, you have included a list of key words, suggestions for reviewers (including their contact information), and the name of the special issue (if the manuscript is being submitted for a special issue) in the cover letter.

Select One:

I am the corresponding author (As the corresponding author, you will receive all correspondence related to the manuscript and will be able to track the status of your manuscript on your Paragon home page.)

I am submitting on behalf of the corresponding author (All correspondence will be sent to the corresponding author. You will be able to track the status of the manuscript on your Paragon Home Page.)

Begin the Submission Process

Proceed to Step 1

a Corresponding Author

If you are submitting a manuscript on behalf of a corresponding author, you will be able to track the manuscript on your personal home page. However, all correspondence related to the manuscript will be sent to the corresponding author.

Step 1 - Contact Information:

Enter, review, or update the **corresponding author's** contact information.

Step 2 - Manuscript Information:

Enter information about the manuscript, such as title, manuscript type, and abstract.

Step 3 - Upload Documents:

Be sure your manuscript file and other required documents are ready to be uploaded. The journal's specific instructions will tell you which documents are required.

Step 4 - Review & Submit:

It is required that you review your uploaded

Industrial & Engineering Chemistry Research (ie060562c)

Submit Manuscript Revision

Step 1 - Contact Information For Corresponding Author

Please review your contact information below. If any data are incorrect, you may change them here. Changes will be saved to your profile when you click the "Proceed to Step 2" button below. If you would like to change the corresponding author's name please contact the editorial office for assistance.

*** = Required Field**

Corresponding Author **Dr. Istadi Istadi**

Organization, University, or Other Affiliation

Diponegoro University

Department

Dept. of Chemical Engineering

Address 1*

Step 2 - Manuscript Info

Step 3 - Upload Documents

Step 4 - Review & Submit

Helpful Information

Correcting Contact Details
The contact information in Paragon should reflect the corresponding author's current address and email address, even if the author is temporarily relocated (on sabbatical, for example).

If you are the corresponding author, the contact information reflects the information you provided when registering with Paragon. You may update your contact information on this page, and it will be saved to your profile when you proceed to Step 2.

If you are submitting on behalf of the corresponding author, please enter contact information for the corresponding author.

Helpful Information

Uploading Files:
Please adhere to the cover letter requirements for the journal as described in the 'Introduction' step. Files must be uploaded one at a time. Only one file will be uploaded if you select multiple files for simultaneous upload. If you do not know the format of a file for upload, or if the format is not in the pull-down list, choose the file type "other". All uploaded files will be listed for your review after you click on the "Attach" button. In addition, all files uploaded in word-processing file formats (other than plain text files) will be automatically converted to PDF files.

Required Documents:
Required documents include the manuscript and cover letter. They may be submitted as word-processing files and/or PDF files, depending on

cover letter. They may be submitted as word-processing files and/or PDF files, depending on the journal's requirements and your selected option in Step 2.

Supporting Information: This category includes traditional documents such as experiments or calculations for future researchers. These documents are not essential in the body of the manuscript but will be published on the Web. You may also upload any multimedia files that support your work. The file formats accepted are listed in the File Format pull-down menu. If you do not know the format of a file for upload, choose "other" from the list.

Review-Only Material: Use this category to submit material that aids the reviewer but is not intended for publication. Cited "submitted for publication" or "in-press" manuscripts should be uploaded as Review-Only material. Unpublished manuscripts that are related to or support the research, and which are cited in the references as "submitted" or "in press" are examples of Review-Only material.

Check PDF files: Before completing your submission, use the [Check](#)

Aims & Scope

Asian Journal of Political Science (AJPS) is an international refereed journal sponsored by Department of Political Science, National University of Singapore. It is a leading journal that comprehensively examines politics and governance in Asia. It publishes original articles in major subfields of political science, especially comparative politics, international relations, political theory and public administration, with specific reference to Asian regions and countries.

AJPS aims to address some of the most current political, diplomatic, and administrative issues facing Asian countries, especially those in East Asia, South Asia, and Southeast Asia. The journal can be of great value to teachers, students, researchers, and experts dealing with these issues and regions.

Done

Presentasi_UIN_Agu... KCM - Bukan Sekada... Asian Journal of Polit... C:\WINDOWS\system... Microsoft PowerPoin... 12:26

Instructions for Authors

*****Note to Authors:** please make sure your contact address information is clearly visible on the **outside** of all packages you are sending to Editors.***

Asian Journal of Political Science (AJPS) invites contributions focusing on Asian countries or regions and covering major areas of political science, including the system of state and government, political parties and elections, civil society and non-government organization, interstate relations and conflict, Asian political thought, foreign policy and diplomacy, public policy and public administration, administrative reform and decentralization, etc.

Terms & Conditions

AJPS considers only original manuscripts that have not been published or submitted elsewhere for consideration. Authors must seek permission to quote from and reproduce copyright materials in their manuscripts. Each submission is subject to blind review, and therefore, the author's name and affiliation should not appear on the manuscript itself. For each manuscript, there should be a cover page to include the author's name, affiliation, address, telephone, fax, e-mail, and biographical note (a short paragraph). Authors will be informed of the outcome and editorial decision within 2-3 months after the initial submission of manuscripts.

It is a condition of publication that authors assign copyright or license the publication rights to the publisher. They may subsequently use the article elsewhere after publication without prior permission, provided that proper acknowledgement is given to *AJPS* as the original source of publication. Further information about copyright policies is available at www.tandf.co.uk/journals/authorrightrights.pdf.

Correspondence

Authors should submit manuscripts via electronic mail (softcopy) or regular mail (three printed copies) to either of the two Editors: **(1) Jon S.T. Quah**, Department of Political Science, National University of Singapore, 11 Arts Link, AS1 4th Level, Singapore 117570, E-mail: polqst@nus.edu.sg; or **(2) M. Shamsul Haque**, Department of Political Science, National University of Singapore, 11 Arts Link, AS1 4th Level, Singapore 117570, E-mail: polhaque@nus.edu.sg.

Books for review should be sent to **Kripa Sridharan**, Department of Political Science, National University of Singapore, 11 Arts Link, AS1 4th Level, Singapore 117570, E-mail: polstridh@nus.edu.sg.

Manuscript Preparation

All submissions must be in English, typed in Microsoft Word, and thoroughly double-spaced (text, notes, and references) with one-inch margins from all sides. British spelling is preferred. Use single quotation marks for quoted text, and double quotation marks for quotes within a quote.

Manuscript pages should be consecutively numbered. The length of articles should be around 6,000 to 10,000 words (including notes and references). The first page of each manuscript should contain the article title (without the author's name), an abstract (150-200 words), and six key words. The main text should be properly structured with necessary headings and/or sub-headings.

Notes should be kept to a minimum and compiled as endnotes at the end of the article (just before the references). Tables and figures should not be inserted within the manuscript pages, they should be presented at the end of the manuscript. Author should, however, indicate within the manuscript the desired location of each table or figure.
