**“FAKTOR-FAKTOR YANG BERHUBUNGAN DENGAN PELAKSANAAN
PROGRAM UKS DI WILAYAH KERJA PUSKESMAS KEJAJAR II
KABUPATEN WONOSOBO”**

x + 61 hal + 12 tabel + 7 lampiran

UKS sangat penting keberadaannya di lingkungan sekolah, yakni ujung tombak upaya kuratif dan preventif kasus kesehatan. Menanggapi banyaknya kasus masalah kesehatan yang terjadi pada anak usia sekolah seperti demam berdarah dengue, diare, cacangan, infeksi saluran pernapasan akut, serta reaksi simpang terhadap makanan akibat buruknya sanitasi dan keamanan pangan mengindikasikan bahwa pelaksanaan program UKS belum optimal. Tujuan penelitian ini adalah untuk mengetahui faktor-faktor yang berhubungan dengan pelaksanaan program UKS (Usaha Kesehatan Sekolah) di wilayah kerja Puskesmas Kejajar II Kab. Wonosobo.

Penelitian ini merupakan penelitian korelasi dengan pendekatan *Cross Sectional* yang dilakukan di wilayah kerja Puskesmas Kejajar II Kab. Wonosobo pada tanggal 1 Januari 2008 – 31 Januari 2008 dan dengan metode pengambilan sampel berupa total sampling. Pengolahan data menggunakan analisis *Chi-Square*.

Hasil penelitian didapatkan mayoritas responden berumur di kurang dari 40 tahun (82,6%), berpendidikan Perguruan Tinggi (87%), responden mempunyai masa kerja semuanya di atas 10 tahun dan semua berstatus Pegawai Negeri Sipil, lebih banyak petugas UKS berpengetahuan baik dan bersikap mendukung (56,5%) serta sarana dan prasarana UKS-nya baik yaitu 65,2%. Hasil penelitian diperoleh lebih banyak responden yang mempunyai kategori pelaksanaan program UKS baik sebesar 65,2% dibanding pelaksanaannya kurang sebesar 34,8%. Tidak ada hubungan pengetahuan dengan pelaksanaan program UKS ($p = 0,192$), ada hubungan sikap petugas UKS dengan pelaksanaan program UKS ($p = 0,026$) serta ada hubungan sarana dan prasarana UKS dengan pelaksanaan program UKS di wilayah kerja Puskesmas Kejajar II Kab. Wonosobo ($p = 0,003$).

Perlu adanya peningkatan dukungan positif sikap petugas UKS, dan peningkatan sarana dan prasarana UKS, karena hal tersebut berperan penting dalam rangka terciptanya program UKS.

ABSTRACT

AROFAH

“FACTORS WHICH HAVE RELATED WITH EXECUTION OF UKS PROGRAM AT WORKING REGION PUSKESMAS KEJAJAR II WONOSOBO”

x + 61 pages + 12 tables + 7 enclosures

UKS is the most important existence in school environment, as effort to curative and preventif healthy cases. Spreading of disease base on environment among schoolchild still high. Infection case like fever dengue, diarrhoea, wormy, acute bronchi infection, and also reaction of branch to food caused by the worse of food's sanitation and safety. Answering to many case of the healthy problem that happen at school age child indication that execution of UKS program not optimum yet. Target of this research's problem is factors which have related with execution of UKS (*Effort Healthy of School*) program at Puskesmas Kejajar II Kab. Wonosobo.

This research represent is correlation with cross cectional approach which done at working region Puskesmas Kejajar II Kab. Wonosobo on January,1st 2008 - January,31th 2008 with method intake is total sampling. Data Processing using Chi-Square analysis.

Result of research get responder majority who age less than 40 years old as (82,6%), education of College (87%), all responder who have been working more than 10 years and also have status of State Employ of Civil, UKS's officer as majority have good knowledges and give support to UKS program as (56,5 %) and also have good UKS's facilities as 65,2%. Result of research obtained the more responder have good category execution of UKS program as 65,2% than less execution as 34,8%. There is no correlation between knowledge and execution of UKS program ($p = 0,192$), there is correlation between UKS's officer attitude with execution of UKS program ($p = 0,026$) and also there is correlation between facilities and execution of UKS program at working region Puskesmas Kejajar II Kab. Wonosobo ($p = 0,003$).

Need to the make-up of positive support of attitude officer of UKS, and improvement basic facilities of UKS, because the mentioned play important role in order to program creation of UKS.

Key Words : Knowledge, Attitude, UKS'facilities
