

ANALISIS PERSEPSI PETUGAS MEDIS/PARAMEDIS TERHADAP KLINIK SANITASI DI PUSKESMAS WILAYAH KABUPATEN TEGAL

SAPARUDDIN -- E2A303170
(2005 - Skripsi)

Salah satu terobosan untuk mengatasi masalah kesehatan yang berbasis lingkungan adalah keberadaan Klinik Sanitasi. Klinik Sanitasi sebagai salah satu pelayanan puskesmas, mengintegrasikan antara upaya kreatif, promotif dan preventif yang mempunyai peran sebagai pusat informasi, pusat rujukan, fasilitator di bidang kesehatan lingkungan dan penyakit berbasis lingkungan.

Penelitian bertujuan mengetahui persepsi petugas medis/paramedis puskesmas terhadap rujukan pasien ke Klinik Sanitasi. Penelitian ini termasuk jenis penelitian kualitatif yang bersifat deskriptif. Responden penelitian adalah seluruh petugas medis/paramedis (dokter, bidan, perawat) puskesmas yang telah melaksanakan Klinik Sanitasi di puskesmas wilayah Kabupaten Tegal sebanyak 18 puskesmas. Metode analisis data menggunakan kualitatif deskriptif dengan analisis interaktif.

Kesimpulan hasil penelitian : 1) Persepsi petugas medis/paramedis puskesmas tentang Klinik Sanitasi di Puskesmas wilayah Kabupaten Tegal pada dasarnya adalah untuk mendukung upaya pengatasi masalah penyakit berbasis lingkungan dan masalah kesehatan lingkungan permukiman. 2) Persepsi petugas medis/paramedis puskesmas terhadap tujuan Klinik Sanitasi di puskesmas wilayah Kabupaten Tegal adalah mengatasi masalah kesehatan lingkungan serta meningkatkan kemampuan dan perilaku masyarakat ke arah yang lebih baik. 3) Persepsi petugas medis/paramedis puskesmas terhadap sasaran dan ruang lingkup kerja puskesmas yang menghadapi masalah kesehatan yang berbasis lingkungan. 4) Persepsi petugas medis/paramedis puskesmas terhadap strategi operasional Klinik Sanitasi di puskesmas wilayah Kabupaten Tegal masih kurang. Kurang pemahamannya para petugas medis dan para medis tentang strategi operasional Klinik Sanitasi terkait dengan kegiatan sosialisasi dari pemerintah. 5). Persepsi petugas puskesmas wilayah Kabupaten Tegal adalah memberikan penyuluhan, konseling, survei dan tindak lanjut kepada pasien yang dirujuk ke Klinik Sanitasi.
